Viewers have the possibility to ask details via the “Contact” page. Since the beginning, we received 15 demands.

The requested subjects are various. Some regards the difference between Traditional FS and Chue Style, some are question about courses and certificate validation in Switzerland, for the most interesting ones.

Today, I count 7 requests . The main subject is the availability to the published trainings.

I respond personally to the message and redirect to the concerned teacher.

Last year (from October to June 2018) we received 8 emails through the website.
